Biography

Joff van Reenen, Founder and CEO of The Chant Laboratory, a Founding Partner and Lead Auctioneer of the High Street Auction Company and a Director of the National Auctioneers Association (NAA), is arguably South Africa's most experienced and talented auctioneer.

Joff currently holds seven South African auction records; six of them in real estate. In 2014 Joff's sale in less than 120 seconds of the Kyalami F1 racetrack for 205 million netted two records – for SA's highest real estate auction price ever achieved and for the highest commercial property auction sale price. In 2016 he set the highest ever residential auction sale price with 96m for a Cape Town villa, followed in 2021 by the auction of the oldest property in the country to ever go under the hammer – a 330-year-old Stellenbosch winery. Global fascination smashed auction marketing records in South Africa; resulting in the largest ever national real estate marketing campaign that attracted some 2.4m online views. Joff's final record was set in 2020 when he conducted SA's largest ever classic car sale. This global marketing campaign also netted Joff the National Auctioneers Association/USA Today 2021 Global Marketing Campaign of the Year Award.
